THE supply of water has been irregular and scanty for three months past on that part of the plains which is supplied from the Maikiki reservoir. There is plenty of water in the Maikiki valley, at and above the waterfall, but a large part of it is lost in the sandy soil before reaching the point where it is taken for city supply. The scarcity is at length to be remedied by means which sught to have been adopted a long time ago, viz., a box flume from the neighborhood of the waterfall to the reservoir. The survey of the line of flume was begun on Wednesday by Mr. Law-rence. Meanwhile it is intended to cart up material so that the work can be proceeded with rapidly as soon as the survey is complete, and it is hoped that a full supply will be available in about a

They also sang several choruses during the evening which was further enlivened by songs from Mrs. More and Messrs. T. R. Walker, More and Brown, a piano solo by Mrs. Kennedy and a duett by the Misses Young. Later in the evening toasts were in order, amongst which that of "The Manager of the Iron Works," and 'Mrs Young and the Children," were received with unbounded enthusiasm. The pleasant evening was wound up by "Auid Lang Syne," sung by all present after the good old Scottish fashion.
